

## AUTOMATED AND MANUAL OPTIONS

- Your awning can be automated so that you can operate via a remote or you can select a manual gearbox option with operation via a crank handle.

## FABRIC CHOICE

Selecting the right fabric for your awning is key.

Our Recacril Acrylic Canvas range not only offers an impressive selection of colours, both plain and textured, it also comes with a 10 year warranty. Designed and manufactured in Spain it is a 100% solution dyed acrylic canvas with a double sided Fluorocarbon finish. It is woven in such a way as to maximize its tear and tensile strengths for a highly durable, tear-resistant fabric. This method, known as the Infinity Process, makes it highly water-resistant and dimensionally stable so that your awning will be long lasting and stay beautiful.

MICROBOX

SMALL IN SIZE, BIG IN SOLUTIONS

DROP ARM AWNINGS IDEAL FOR WINDOWS

Llaza Awnings are designed and manufactured in Spain. Componentry is made fully inhouse by Llaza so they can control every step of the quality.

The header box helps keep the fabric in perfect condition.

COMPACT AND MODERN DESIGN AVAILABLE IN WHITE AND BLACK

ALL COMPONENTS ARE ALUMINIUM WHICH ALLEVIATES ISSUES OF RUST, HELPS WITH LONGEVITY OF AWNING AND IS ENVIRONMENTALLY FRIENDLY.

#### SPRING DROP ARMS

- This system has PRT-07 arms which feature an internal tension transmission system using the ART-SYSTEM's flat and flexible belt.
- This system provides significant aesthetic and technical advantages.
- It prevents the finish from eroding and reduces friction.
- It increases the life span of the awning and also improves its finished look because all of the tension elements are hidden.

Inclination can be increased to nearly 180°, enabling it to cover even very tall windows.

Microbox 300 projects to a maximum of 1.6m at 90°, but thanks to the interior capacity of it's cassette - which can hold up to 3m of fabric
