

Care Instructions for Boatmaster® Plain and Coated RECacril®

Acrylic UV Resistant Canvas

Stock Code CVAR and CVACR

Proper care and cleaning should be taken to ensure the life of RECacril® outdoor fabrics. For regular care and maintenance, excessive dirt should be brushed from the fabric using a soft brush; fabric should then be sprayed with warm water (not exceeding 100°F / 40°C) and air dried. Periodically the fabric should undergo a more thorough cleaning; again brush fabric with a soft bristled brush, spray with warm water, and then apply a gentle non-detergent soap and let stand for 10 to 20 minutes before rinsing. Rinse thoroughly and air-dry. **DO NOT** use Detergent.
