Proudly New Zealand owned since 1924

## NEW RANGE

### Moulded Car Carpets Front and Rear

Loop Pile

Cut Pile

### Complete Moulded Carpet Kits

Loop Pile

]Cut Pile

### Colour Range

**Loop Pile** - This carpet is constructed using top quality spun Acrylic yarn and is tufted on a 5/32" gauge tufting machine at 600 grams per square meter. The carpet is produced in one meter wide rolls which are backed with Polyethylene which enables it to be moulded to the contours of an automotive floorpan. As its name suggests loop pile carpet is made up using many small loops of yarn and is most commonly used in vehicles from the 1960's up until the mid 1980's.

**Plush Pile** - Uses a similar construction process to Loop pile but with a much higher yarn density of 750 grams per square meter. Plush pile (sometimes referred to as Cut pile) gives a more luxurious appearance and is generally used in most vehicles from the mid 1980's to the present day

The standard front and rear moulded carpet car kits are listed overleaf. Plus there are also non standard, full kits, cargo and boot mats available. Please contact us for more details.
