We hope you and your families are all well and we appreciate this has been a very tough time for small and medium businesses around the country and we are here to help, if you require support or even just someone to talk to please don't hesitate to give us a call.

Pacific Plush Marine Carpet 200cm Slate

Tested to the ISO 9239.1:2010 Part 1 standard and has passed.

We have altered the formulation of this product. The look and feel remain identical but you can now use this in internal situations where FR standards need to be met.

The primary use for this carpet is in marine applications but it is equally suitable for use as flooring in garages, conservatories, entry ways and porches.

CPPPSL

New Embossed Finish

Our highly successful and popular Top tarp 700 Leather Grain now has the new embossed finish on it that you asked for.
