Trade Tip

Double Tacking when gluing carpet with a rubber backing.

Apply a light precoat onto carpet backing, allow time for solvent to evaporate and then apply full normal adhesive coat.

RECwater PVC Coated Acrylic Canvas

Made of solution-dyed acrylic fibers with a PVC coating on one side, which makes it absolutely waterproof. The PVC coating is coloured to match the colour of the acrylic, thus, it is possible to combine the elegance of the acrylic fabric with PVC waterproof performance. The PVC coating is formulated to achieve a perfect adhesion with the acrylic fabric. Unlike other products on the market, RECwater does not crack or roll and has an excellent dimensional stability. Because the PVC is not laminated to the canvas there is no risk of delamination. **CVRRW__ (Black & Raw)**

Denver Grippa Vinyl

Ideal for motorbike and jetski seating. The exciting Grippa range is designed for no more slipping and sliding by providing traction that is specially placed to assist rider control whether it is wet or dry. The rubberised diamond Grippa material includes all the modern team colours. 7 colours **LCDG__**
