**They say the older you get the quicker the year goes, well I must be getting on as this year has flown.**

2018 has seen Reid and Twiname continue to look for and introduce new products to most of the industries we service and at last count there was over 100 new codes created. Of course we can't do that without the support from you and we thank you very much.

We will be closing on Friday the 21st which means you only have three weeks to complete that job list, freight volumes will be at the maximum so get that order in early to reduce those stress levels.

I hope you all have a great Christmas, make the most of that family time opportunity and most importantly be safe and we look forward to catching up in 2019 which for us starts on the 7th January.

*Kind regards, Grant Stewart*

## Marine Linings and Flooring

Our range of lining is specified into many of the original equipment boat manufacturers nationwide to improve the aesthetics and acoustic properties. The colour range continues to evolve as the marine sector involves us in the upgrading and design process. High UV resistance, low pilling performance and very competitively priced. Also suitable for horse trucks and floats.
