

# TEXTILES CATALOGUE

[www.retwine.co.nz](http://www.retwine.co.nz)

R&T –The ITES Division has aligned itself with key local & international manufacturers and suppliers bringing innovative product ranges to support the Industrial and engineering hardware sectors. Industry specific locks, hinges, seals, catches, fasteners, seating, ventilation and rubber products are mainstays of the range.

R&T Outdoor Concepts are bringing your outdoor living ideas to reality. We are proud agents of Llaza, a European designed range of aesthetically pleasing Awnings, Roof systems and Vertical Blinds.

To complete our range we have a great selection of colours of Vistaweave Screen mesh and Recasens Acrylic Canvas plus our ReClear range of clear PVC.

R&T Progressive Textiles encompasses a number of highly recognisable international brands alongside local and in house brands.

The division supports the marine & motor trimming, equestrian, horticulture, upholstery and canvas fabrication sectors. A comprehensive array of fasteners, fittings and accessories are also available.

## HISTORY

Reid and Twiname Limited was founded in 1924 as an importer of motor body hardware for the horse & coach, trucking, bus & automotive industries.

The company grew around a range of seat cover fabrics, motor car toppings & leather upholstery fabrics to become a major supplier to the OE & after market in the 1950's. It expanded into canvas & outdoor textiles in the 1970's.

The present owners purchased the business in 1990, grew the business alongside other interests for 10 years then merged all the operations in 2000; expanding further into the marine & outdoor textile market to turn the company into the leader that it is today.

## ACTIVITY

R&T is New Zealand's foremost importer & distributor in motor body hardware, automotive, marine & outdoor textiles. We have a range of over 3,000 STUs from eyelets & washers, through all the fittings & fabric accessories for trucks, buses & cars, to canvas, PVC and outdoor textiles for homes, farms, boats, animals, recreation & industry. R&T has over 1,000 active customers in any one month, with an average 200 dispatches a day. Its' customers are auto, marine & furniture upholsterers, bus, coach, truck & recreational vehicle manufacturers, horse rug manufacturers, clothing & industrial manufactureres and outdoor textile manufacturers like tarpaulin, shade, canvas & horticultural fabricators.

## BUSINESS PHILOSOPHY

R&T's core beliefs are around transparency & honesty; working with like-minded customers & suppliers, growing reputable, ethical & sustainable businesses. It has embraced the digital business environment and strives to brand itself as providing unbeatable customer service.

## COMPANY STRUCTURE

R&T's head office & principal warehouse is in the central Auckland industrial suburb of Mt Wellington, It has a branch operation in Sockburn, Christchurch. The company is the most substantial in the industry and employs between 24 & 28 people, has 7 area managers on the road supported by 5 customer service personnel in Auckland & Christchurch. It has the largest operating facilities of any in the industry & in 2012 relocated to its larger warehouse in Auckland. Grant Stewart was appointed Managing Director early in 2012, & Dennis Thorn retains his shareholding and directorship. Pat Hales is Operations Manager & Bernard Rooza, Finance & Administration Manager. Grant Barlow manages the South Island branch.

## OPERATIONS

R&T imports its range of products from all around the world as well as trading in locally sourced accessories & trims. It has supply arrangements with over 300 suppliers & manufacturers representing some of the trade's foremost brands. Companies like Spal, GRAMMER, Happich, Albert Jagger, Camira, Kalori, Robbins Auto Tops, & Velcro. These company's products are run alongside a large range of house brands in the automotive & marine fabric & outdoor textile sectors that have over the years become the first choice in the industry. R&T has a 30,000 square foot facility in Auckland & a 10,000 square foot facility in Christchurch, making it the largest in the sector, by some measure. Its import & shipping service providers are the best available, giving R&T a competitive edge. Shipping to New Zealand is worry free with minimal restraints to trade. R&T is a 100% New Zealand owned private company with substantial private backing.

## AUTO TRIMMING

- Whether it's a vintage classic car restoration or a refurb of a trade vehicle or family car, we have quality products to complete the job to perfection.
- NZ has the fourth highest per head of capita for car ownership in the world and we are known for holding onto our asset for longer than most countries. Our tradesman have a worldwide reputation of high quality workmanship and collectors send their vehicle to New Zealand for vintage restoration from all parts of the globe. This plus our passion for refurbishing our own vehicles means the Automotive Trimming Industry is still going strong and Reid and Twiname continue to develop our range to satisfy the industries needs.

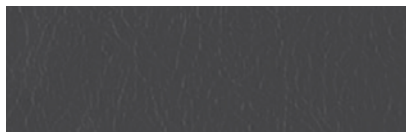

### Denver™ Leathercloth

LCD\_ \_

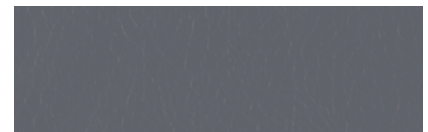

- Width: 137 cm.
- Thickness: 0.8 -1.0mm gauge
- Roll Length: 30 metres (nominal).
- Backing: Double knit polyester/rayon for extra strength and flexibility.
- UV Protection: UV resistant quality fabric for general furniture, auto use.
- Warranty One year warranty against de-lamination/cracking.

## Denver™ GT Grippa

- Ideal for motorbike and jetski seating. The exciting Grippa range is designed for no more slipping and sliding by providing traction that is specially placed to assist rider control whether it is wet or dry. The rubberised diamond Grippa material includes all the modern team colours.
- UV Stabilised, Abrasion Resistance, Resistance to Flexing, Blocking Resistance.
- One year warranty against de-lamination/cracking
- 137cm width

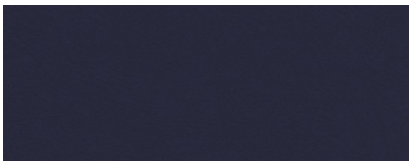

Black LCDGBK

Orange LCDGOR

## Capri Leathercloth

- Width: 137 cm.
- Thickness: 1.1mm
- Weight: 652gsm
- Roll Length: 30 metres (nominal).
- Backing: Polyester/Cotton
- Warranty: Two year warranty against de-lamination/cracking.
- UV Stabilised: Prevents cracking and wear from the sun's damaging rays. Colourfastness to light: AS1441.11
- Abrasion Resistance: Wyzenbeck:AS2001.2.30 50,000+ cycles
- Flame Retardency: Tested to AS1530.3 Ignitability Index 16, Heat Evolved Index 0, Spread of Flame Index 0, Smoke Developed Index 5
- Meets the International Maritime Organisation test standards for FR. A.652(16)
- Smouldering cigarette will not ignite upholstery material – Passes cigarette burn test: AS3744.1
- Bio-Pruf™ treated. Built in protection from microbial and fungal attack and the staining, odours and structural degradation that can accompany it.
- The Permashield® coating protects the upholstery surface as well as offering a unique 'anti graffiti' finish which helps control stubborn stains and graffiti.
- Warranty: Two year warranty against de-lamination/cracking.

## Caribbean™ Hull Liner

- 200cm x 25m, 450g/m2 non-woven, polyester, low profile velour liner.
- Used for marine interior lining, parcel shelves, headlining.
- Needle punched, melded, and UV treated, this moisture and UV resistant liner helps to prevent the growth of mildew and mould, contributes to noise reduction, and is highly resistant to abrasion.

### Products in the range

Sand CPCHLSS

Graphite CPCHLGT

Storm CPCHLSM

Dusk CPCHLDK

## Boston Bootliner and Trunkliner

- Bootliner - Flexible lightweight polyester 280gsm fabric for lining boots or vehicle compartments.
- Trunkliner - Polyester 360gsm fabric used for lining parcel trays, trunks, car boots, and luggage compartments.
- 200cm width. Approx 50m roll.

### Products in the range

Bootliner Charcoal CPBBLCC

Trunkliner Black CPBTLBK

## Boston Polyfelt

MGPFBK

- Vinyl covered jute felt. Suitable for car boot and trunk lining.
- 140cm Black Matting 20m Roll

## Underfelt

FLA1

- Made from recycled fibres with a polyester binder. Used in furniture spring & arm covering, carpet underlay, sound deadening, panel lining for anti drumming.
- Weight 800gsm. 1.83m wide, 25 metre rolls. Thickness a nominal 10mm.

## Acoustop Multigrade Noise Insulation

AMABW4

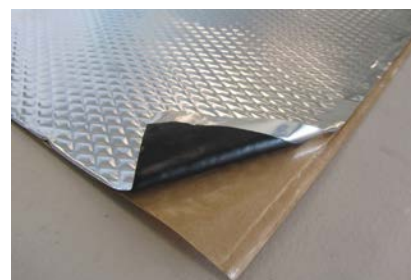

- 2.2m x 1.3m Sheet.
- Foil faced, fire tested noise barrier. Total thickness 32mm. Ideal for coach or boat engine compartment lining. Combines the benefits of a high performance flexible noise barrier and acoustic foam to achieve maximum noise reduction from an enclosure. Offers 45% more perceivable noise reduction than plain foam.
- Manufactured as an easily installed composite lining, it allows for simple application into small and difficult to line spaces. Low maintenance Bonded Foil facing provides a robust surface finish, ensuring protection from damage and giving maximum AS1530 Part 3 Early Fire Hazard properties.
- Moisture proof, dust proof and chemical resistant. No specialist tools or equipment required for installation. Simple fixing system with Pre-Spray adhesive already applied to the product, easily fitted with standard adhesives and tapes.

## Sound Barrier Decidamp CLD PRO

AMAPRO

- 500mm x 1000mm x 1.5mm
- A constrained layer, visco-elastic damping material, designed to reduce structural vibration and sound transmission within light gauge materials. Decidamp CLD PRO was developed to meet market noise reduction requirements in the automotive, industrial and OEM markets.
- Lightweight and easy to handle. Easy to install, high tack self-adhesive backing. Remains flexible and does not become brittle. Resistant to weather and UV light.
- Applications: Most effective when applied to lightweight panels and steel substrates of up to 2mm, aluminium substrates up to 4mm and FRP (solid) up to 6mm thick.

## Stayfast® Topping

TPSFBKBK

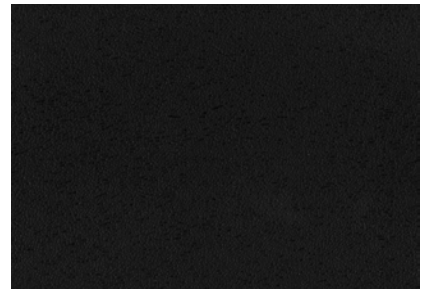

- Cloth sports topping. A 3 ply composite made of an acrylic square weave outer fabric, a rubber inner layer and a lining.
- Used for sports car (convertible) hoods.
- Black/Black
- 152cm width

## Ripstop Tonneau Cover

TPTG

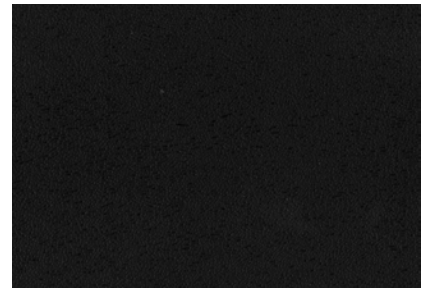

- 205cm x 30m 100% polyester base cloth with an embossed black PVC top coating.
- Black/Black

## Tonneau-Tex SP 205cm Black

TPTT18BK

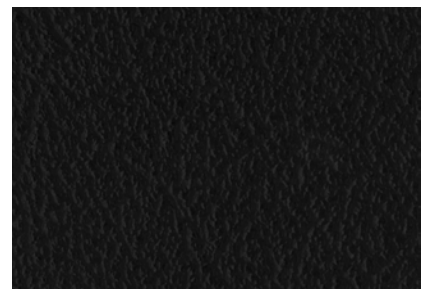

- Thermal & UV treated. 30 metre roll. 650 g/m2.
- Base Fabric: Polyester 180gsm. Top side: PVC with Cowboy Embossed Surface 470gsm.
- Tensile Strength: 2500N.2300N. Tear Strength: 250N. 250N.
- UV warranty 3 years
- Colour Fastness to Light: Min. of 6 on scale of 1 - 8.
- Water Resistance: Top Coating Water Resistant.

## Forte™ Sports Topping Black

TPBBST152

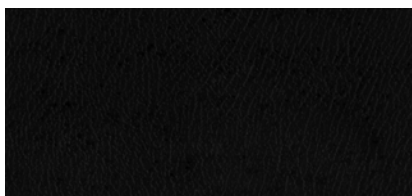

- PVC based convertible topping product line. The 100% solution dyed black polyester backing mimics the look, feel, elongation and bonding properties of cotton, without the characteristic tenderization and loss of strength over time that is typically associated with cotton backings. This new polyester backing also imparts superior tear resistance and dimensional stability.
- 152cm wide

## Toptarp® 700 Leathergrain 205cm

PVTT7LGBK

- Heavy weight, spread-coated PVC on plain weave polyester cloth with a leathergrain finish. Used for Ute tonneau's and hard outdoor use
- Width: 205cm
- Weight: 680 g/m<sup>2</sup> + or – 10 g
- Roll Length: 30 metres
- Base Fabric: 1100 D/tex. polyester 9 x 9
- Weave: Plain weave
- Process: Spread coated
- Finish: Leather Grain
- Tear Strength: Warp 39 kg Weft 34 kg
- Tensile Strength: Warp 260 kg Weft 220 kg
- U.V. Resistance: Thermal and U.V. Treated
- Resistance to Damage by Flexing: 55,000 flexes with no cracking
- Blocking Test: No Blocking
- Accelerated Aging: Not Greater than 7% weight loss
- Colour Fastness to Light: Min. of 6 on scale of 1-8
- Resistance to Hydrolysis: 800 mm Min
- UV Warranty: 3 years

## Film Backed Foam 10mm

FMBK10

- This product has a multitude of uses and is ideal for pleating in marine and automotive applications. Also used for padding or covering seats or arms in furniture recovery work.
- 183cm wide. 15m roll.

## Pink Pleating Foam

FMTB\_ \_

- High Density Tricot Backed Foam, used for pleating vinyl or fabric on marine seating, outdoor furniture, motorcycle and tractor seats.
- 24 Density 240 Hardness
- Sold by the Roll only

### Products in the range

FMTB06 6mm thickness 150cm x 15m

FMTB10 10mm thickness 150cm x 10m

## VELCRO® Brand Standard Tape

FAVS\_ \_

- The perfect nylon fastener to sew on to any fabric by hand or machine. Can also be rivetted, screwed, nailed or stapled. Rust and jam-free it will out perform and outlast traditional fasteners.

Available in

20mm Black and White

25mm Black White, Beige

38mm Black, White

50mm Black, White

100mm Black and White

25m rolls Black, White and Beige

## VELCRO® Brand Pressure Sensitive Tape

FAVP\_ \_

- Pressure sensitive acrylic self adhesive with superior bond strength and high temperature performance. 25m roll.

Available in

20mm Black and White

25mm Black and White

50mm Black and White

## VELCRO® Brand Pressure Sensitive Outdoor Tape

FAVODP\_ \_

- Pressure sensitive rubber self adhesive with superior bond strength and high temperature performance. 25m rolls.

Available in Black 25mm

## VELCRO® Brand Industrial MVA8 Tape

FAVMVA8\_ \_

- Heavy duty moulded hook tape that has very high strength and is suitable for applications requiring a more permanent fixing. MVA8 hook is a moulded nylon hook with an arrowhead design. RF weldable. Operating temperature -40° to 121°C. Substrates ABS, acrylic, PE, PP.

Available in Black 25mm Moulded Standard and Moulded Pressure Sensitive hook

## VELCRO® Brand Auto-Loop 38mm White

FAVSAL38WT

- Specifically designed for use on a vehicle where the hook component is bonded to the seat.
- 91.44m roll

## VELCRO® Brand Heat and Solvent Activated Tape

FAVH50WT

- Ultimate bond strength for permanent bonding applications. Moisture resistant. Activated by using acetone, MEK or heat.

Available in White 50mm Hook only.

## Sew On Texilon® Tape

FATS\_ \_

Not suitable for use in exterior applications. 25m rolls

20mm Black and White Hook and Loop

25mm Black and White Hook and Loop

50mm Black and White Hook and Loop

## Texilon® Pressure Sensitive Tape

FATP\_ \_

- Not suitable for use in exterior applications. 25m roll.

25mm Black and White Hook and Loop

50mm Black and White Hook and Loop

## Ados F92 Sprayable Adhesive 20L

ADA92C

- This clear adhesive is formulated to offer very controlled spraying with air driven spray equipment. It is a low viscosity product which gives a fine glue line. Coverage 4-8 sqm per litre, both surfaces. When sprayed it generates virtually no mist, so no airbourne waste and very little vapour.
- It has exceptional performance, superior bond strength and will bond most materials to each other or other substrates.

## Ados F38 Adhesive Clear

ADAA12\_ \_

- High temperature, short tack adhesive. Especially suited for areas where high temperatures are encountered, such as those exposed to direct sunlight, as well as heater and cooking surrounds. Covering 3-5 sqm per litre.
- Widely used by formica laminators, motor trimmers and insulation installers.

### Products in the range

ADAA1201 1 Litre

ADAA1204 4 Litre

ADAA1220 20 Litre

## Ados F55 General Purpose Sprayable 20L

ADAS\_

- Sprayable, long tack contact adhesive. Specifically developed for commercial contractors, it is ideal for bonding large areas. Coverage 4 - 6m<sup>2</sup> per litre bond area
- Bonds most materials to each other or other substrates with the exception of PVC.

### Products in the range

ADASR 20 Litre Red

ADASC 20 Litre Clear

## Ados F2 Adhesive

ADAF2L\_ \_

- A high performance general purpose contact adhesive. It is water resistant and flexible and its high bond strength makes it ideal for a wide range of uses. It is easily applied, durable and bonds instantly to most substrates. Coverage 4sqm per litre.
- Suitable for use on polyurethane foam, metals, pinex tiles, veneer, benchtop laminates, plaster, concrete, fibreglass, particle boards, timber, carpets, cork, plastics, cardboard, fabrics, leather, weatherseals, some cloth-backed vinyls.

### Products in the range

ADAF2L01 1 Litre

ADAF2A575 575ml Aerosol

## Bostik® 555 Sprayable

ADB555\_ \_

- General purpose/laminating adhesive that can be applied by brush, roller or spray.
- Coverage: 2 - 5 m<sup>2</sup>/litre of bonded area dependent on surface porosity and application method
- Versatile adhesive which can be used to give high quality bonds to most common building substrates and general laminating operations.
- Plywood, galvanized and other metal sheets, wood veneer, PVC flooring, internal bracing and honey-comb stuffing, Gib-board etc. Ideally suited for bonding decorative laminates such as Formica, Laminex etc. to partical board surfaces.

### Products in the range

ADB555N 20 Litre Natural

## Bostik® 1181 General Purpose Adhesive

ADB1181\_ \_

- Trim and general purpose adhesive. Has long open tack time coupled with moderately high heat resistance and excellent bond strength.
- Coverage 4 m<sup>2</sup>/L depending on surface and application method. Absorbent surfaces may need two coats.
- Suitable for use on rubber/metal, foam, leather, rubber resin, soling compounds and cotton backed PVC. Does not stain light coloured cotton backed PVC under influence of UV light, and is therefore suited for motor trim work. Adhesive is not designed to bond unsupported PVC.

### Products in the range

ADB1181B01 1 Litre Brushable Natural

ADB1181B20 20 Litre Brushable Natural

ADB1181S20 20 Litre Sprayable Natural

## Bostik® Unigrip 999 HR

ADBUG\_ \_

- Heat activated, high strength PVC adhesive. Suitable for use on PVC inflatable boats, truck sidings and tarpaulins, and general PVC use.
- Easily brushable, Unigrip 999 has low odour (ketone solvents used) and is specially stabilized against excessive and early yellowing and staining due to sunlight.

### Products in the range

ADBUG01 1 Litre

ADBUG04 4 Litre

## Bostik® EPDM Adhesive 500ml

ADBEPDM5

- EPDM adhesive is a one part synthetic polymer based adhesive specially formulated for bonding EPDM rubber membrane to itself and other common building materials such as plywood, concrete metal etc.
- When applied correctly the resultant bonds exhibit exceptional strength and are resistant to heat, water and outdoor exposure.

## Bostik® Aerosol High Performance Adhesive 482 grams

ADBAHP

- High performance fast tack aerosol adhesive.
- Creates permanent or temporary bonds and is suitable for use in attaching carpet, door skins, and fabric in van conversions.
- Also bonds swimming pool liners, paper, cardboard, fabric, urethane foam, foil, metal, wood and various plastics. Useful for installing insulation, label applications, and permanently affixing name plates.

## Ados UHS Aerosol Adhesive 550ml

ADAUHS550

- An ultra high strength contact adhesive which gives an immediate and permanent bond on a variety of surfaces. It is formulated to give low soak, cure fast, dry clear and be non-staining.
- It has high heat resistance and is suitable on porous and non-porous surfaces making it ideal for a wide variety of applications, where permanent, high strength bonds are essential.
- Ados UHS uses a unique resin system making it resistant to breakdown from plasticiser migration. The UHS aerosol is fitted with a variable nozzle, which allows controlled accurate spraying.

## Bostik® Solvent No.2

ADBSN2\_ \_

- Aromatic solvent for clean-up & dilution of Neoprene adhesive. Can also be used for surface cleaning prior to bonding on surfaces which will not be attacked by the solvent.

### Products in the range

ADBSN204 4 Litre

ADBSN220 20 Litre

## Bostik® Solvent No.4

ADBSN4\_ \_

- Strong, thinning solvent. Used to thin or reactivate urethane- or nitrile-based adhesives. Also used to remove dried adhesives from a variety of surfaces and to clean PVC prior to cementing with adhesives.

### Products in the range

ADBSN401 1 Litre

ADBSN404 4 Litre

ADBSN420 20 Litre

## Ados Solvent N

ADANL\_ \_

- General purpose solvent, cleaner and thinner.
- Can be used as a thinner with F2, F22, F38 and F55 adhesives, as well as for pre-wiping surfaces, softening flooring adhesives, and cleaning down shower units and other surfaces like PVC pipes and fittings.
- Can also be used as a general purpose cleaner of brushes, materials and equipment contaminated by neoprene adhesives

### Products in the range

ADANL01 1 Litre

ADANL04 4 Litre

ADANL20 20 Litre

## Ados Stuff Off Adhesive & Paint Remover

ADASO

- A powerful remover that is designed to soften or dissolve most adhesives and paints as well as uncured laminating resins and uncured sealants.
- The gel formula clings to the surface making it also ideal for vertical applications. It also removes paint spills, graffiti, inks and grease.
- 500ml.

## ReClear PVC

- We stock a range of clear PVC suitable for auto top windows

### Products in the range

#### ReClear Achilles

##### PVKDS75 ReClear Achilles Dimensionally Stable PVC 0.75 137mm wide 30m roll

- Clear PVC manufactured using a calendared process. This dimensionally stable product reduces the need to leave overnight before manufacturing and will reduce the variances in stability in variable temperatures.

#### ReClear Achilles Roll Clear SLS PVC

- Clear PVC manufactured using a calendared process. An additive facilitates easy rolling and unrolling of the product. UV stabilised.

PVKRC50 0.5mm 137cm width 25m roll

PVKRC75 0.75mm 137cm width 25m roll

PVKRC7535 0.75mm 137cm width 35m roll

#### ReClear Nan Ya Fire Retardant PVC PVNYC70FR 0.7mm 150cm 30m roll

#### ReClear Achilles Extruded Clear PVC PVKEC1 1.00mm 137cm 20m roll

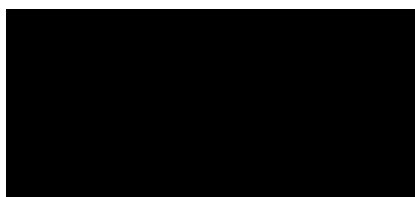

- Manufactured using an extruded process. Used for heavy duty marine cover windows, sports car hoods.

## Recasens Panama 900

PVRP9\_ \_

- With an acrylic lacquer coated finish on both sides it is suitable for curtain sides and heavy duty PVC covers.
- Total Weight 900 g/m<sup>2</sup>.
- Base Cloth 1000 Denier Polyester, Panama weave
- Tensile Strength Warp 3991N / 5 cm. Weft:3490N / 5 cm.
- Tear Strength Warp 990N. Weft 598 N.
- Treatment antiputrefactive Yes.
- Weave Surface Coating Acrylic lacquer finish both sides
- Width 300 cm.
- Adhesion 19N / 5 cm.
- Temperature Resistance -30°C to + 70°C.
- UV Warranty 3 years

## Door Seal DPN Windlace 60-054

WNRDPN

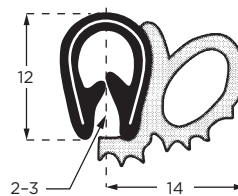

- Large, black door seal. A U shaped edge trim combined with a rubber and PVC seal to help protect the interior from wind and dust. The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners. Suitable for vehicle door and hatch applications.
- 50m rolls - 5m increments.

## Door Seal 6272 Black

WN6272

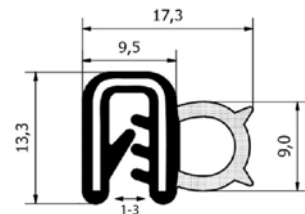

- Small door seal. A U shape edge trim combined with a rubber and PVC seal to help protect the interior from wind and dirt. The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners.
- Suitable for vehicle door and hatch applications.
- 25m rolls - 5m increments.

## Door Seal 6319 Black

WN6319

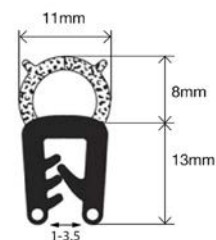

- Small door seal. EPDM. U shape co extruded edge trim combined with a EPDM rubber seal and spring steel core to help protect the interior from wind, dirt and moisture. The steel core enables a strong grip onto the edge but still provides enough flexibility to go round corners.
- Tool box and locker door seal.
- Side tube seal
- 1-3mm grip, 10mm depth, 8mm seal.
- 5m increments, 50m rolls.

## Door Seal 6320 Black

WN6320

- Small door seal. EPDM. U shape co extruded edge trim combined with a EPDM rubber seal and spring steel core to help protect the interior from wind, dirt and moisture. The steel core enables a strong grip onto the edge but still provides enough flexibility to go round corners.
- Tool box and locker door seal.
- Side tube seal
- 1-3.5mm grip, 11mm depth, 8mm seal.
- 5m increments, 50m rolls.

## Universal Dust Tailgate Seal

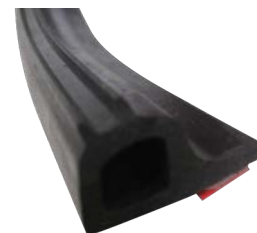

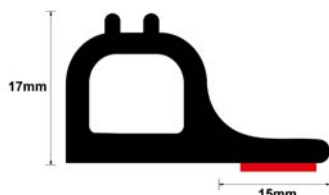

WNUDS

- Universal tail gate or door seal with adhesive VHB tape.
- 35mm wide x 17mm high.
- Install sheet available on our website.

### Products in the range

30m roll WNUDS

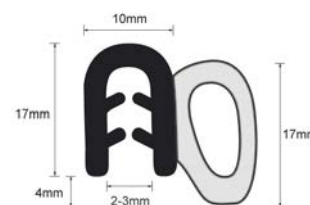

6m lengths WNUDS6

## Red Flag Door Seal

WNRFDS

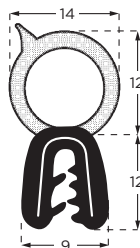

- Small door seal. A U shape edge trim combined with a rubber and PVC seal to help protect the interior from wind, dirt and moisture.. The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners.
- Grip range 2-3mm.
- Tool box or locker door seal.
- 50m rolls - 5m increments

## Boot Seal BS64 Black

WNBS64

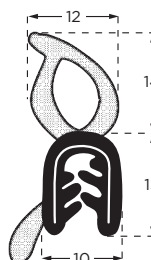

- The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners.
- 50m rolls - 5m increments.

## Boot Seal Black

WNBSRS

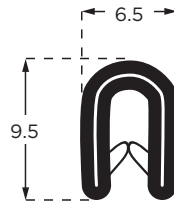

- BSRS Type boot seal. The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corner
- 50m rolls - 5m increments.

## Edge Trim J4901 Black

WN4901

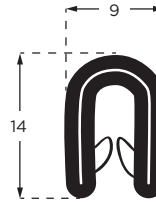

- Grip edge 0.5-1.5mm. Small push on plastic coated edge trim. Suitable to cover raw edges of fibreglass and metal. With a double lip for better grip.
- The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners. Can be used on both interior and exterior applications.
- 50m rolls - 5m increments.

## Edge Trim SNL Black

WNSNLBK

- Grip edge 0.7-2.5mm. Medium push-on edge trim. Suitable to cover raw edges of fibreglass and metal. The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners.
- 50m rolls - 5m increments.

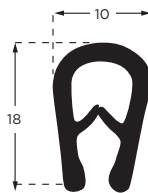

## Edge Trim SNL Large Black

WNSNLGBK

- Grip edge 1-3mm, Large push-on edge trim. Suitable to cover raw edges of fibreglass and metal. The steel core enables a strong grip onto the edge but still provides enough flexibility to go around corners.
- 50m rolls - 5m increments.

## Flock Sprayed Rubber Channel (452)

CLFS452

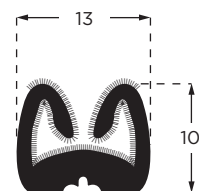

- 13mm x 13mm 30m roll.
- Available in units of 2m.

## Flock Sprayed Rubber Channel (636)

CLFS636

- 12mm x 10mm 30m roll.
- Available in units of 2m.

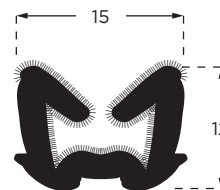

## Flock Sprayed Rubber Channel (638)

CLFS638

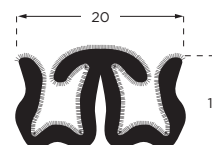

- 14mm x 10mm 30m roll.
- Available in units of 2m.

## Flock Sprayed Double Flex Rubber Channel

CLFSDC

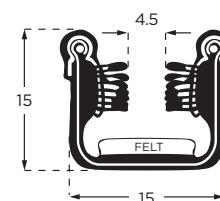

- 20mm x 12mm 30m roll. Available in units of 2m.
- Suits many vans with sliding windows.

## Beaded Flex Channel (Y526)

CLFBD

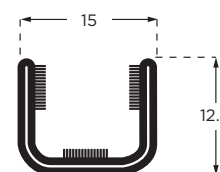

- 15mm x 15mm 2.4m lengths.
- Stainless Steel Bead, flexible steel core, Felt and Moquette lining.
- Suits 4.7 to 6.4mm glass.

## Plain Flex Channel (Y550)

CLFPL

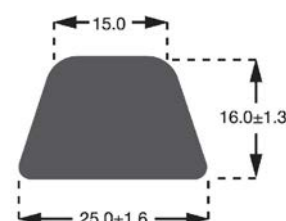

- 15mm x 12.5m.
- Universal Window Channel sold in 25m rolls only, flexible steel core, Felt and Moquette lining.
- Suits 4.7 to 6.4mm glass.

## Sponge Strip S7 20m

RBSS07

- 25 x 16mm rubber self sealing. EPDM, 20m rolls, max. 120°C.

## Windlace Plush No5 Tack-on

WNPL5\_ \_

- Diameter 1.4cm, flange 1.9cm, Tack-On windlace for older Wooden Framed restorations

## Coats Dabond Outdoor Polyester Thread

- Demonstrating superior sewing performance, new Dabond Outdoor has been specifically designed for outdoor life. Ideal for manufacturing sails and countless other outdoor and marine applications, it is a bonded, twisted continuous filament polyester thread.
- Unlike conventional polyester bonded threads, it has exceptional bond cohesion, giving it excellent sewing properties in the toughest conditions. It is completely colourfast, with excellent UV, vinyl, abrasion and chemical protection – particularly relevant in a COVID-affected world where stringent cleaning processes have become the norm.

## Coats Corespun Poly/Cotton

TRPCM\_ \_

- Recommended for canvas tarpaulins and autotrimming.
- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester.
- The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance. In wet, outdoor conditions the cotton wrap absorbs the water and swells to fill the needle holes to prevent leakage.

## Durable Dot Studs with Screw

CFDS550SS

- Pack of 50.
- F582-S550 Stainless Steel

## Durable Nylon Washers

CFDNW

- Used as a barrier between stainless durables and aluminium boat bodies to prevent chemical reaction.
- Pack of 200.

## Durable Spike

CFDS

- Pack of 25.

## PVC Trim Board

BDT102

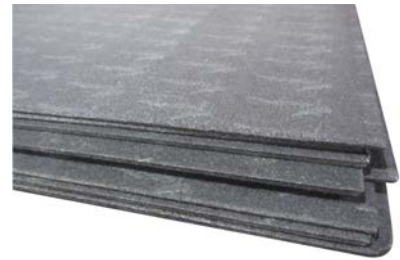

- 2440mm x 1220mm x 10mm.
- Ideal for marine and general trim work, will not absorb water. Lighter than plywood or other wooden boards.

## Panel Board Black

BDPB3

- 155cm x 104cm x 3mm
- Water resistant & flexible.
- Suitable for door panels, truck cabs.
- Can be sewn and won't crack when drilled or hole punched

## Fender Welt Black

FENDBK

- 1 1/2" Tail and 1/4" rounded. Otherwise known as mud guard piping.
- 50m rolls

## Stayfast Binding Black 100m Roll

BIASFBK

- A double fold acrylic binding specially made to be used with Stayfast topping

## Single Fold Vinyl Bias Binding

BISF\_ \_

- 32mm 100m roll.
- One edge folded & glued at 6mm.
- Used for edging carpets, awnings, boat covers and bags.

### Products in the range

Black BISFBK

White BISFWT

## Hidem Binding 16mm Black 50m Roll

BIHBK

- Double beaded in leatherette. Used for finishing seat joints, headlining joins, convertible tops on vintage or classic cars.

## Bow Tape

BIBT

- 32mm x 50m.
- Folded calico tape. For sewing into headlining panels to carry bows for headlining, also for attaching vehicle seat covers to seat frames.

## Delfast Staples 80 Series Stainless Steel

SP80SS\_

- Stainless Steel Staples. Crown width 12.9mm, Wire size 0.6 x 0.95mm, 21 gauge. Box of 5000
- Suitable for Motor Trimming industries.

### Products in the range

- SP80SS4 4mm
- SP80SS6 6mm
- SP80SS8 8mm
- SP80SS10 10mm
- SP80SS12 12mm

## Delfast Staples 80 Series Galvanised

SP80G\_ \_

- Galvanised Staples. Crown width 12.9mm, Wire size 0.6 x 0.95mm, 21 gauge. Box of 10,000.
- Suitable for Motor Trimming industries.

### Products in the range

- SP80G4 4mm
- SP80G6 6mm
- SP80G8 8mm
- SP80G10 10mm
- SP80G12 12mm
- SP80G14 14mm

## Delfast Staple Air Gun 80 Series

SPAG80

- Top quality stapler with bottom loading magazine. Perfect balance and lightweight.
- Suitable for marine upholstery and motor trimming industries.

## Hog Rings

HOGR02

- 20mm x 2mm 2.27kg Box
- Used for attaching vinyl or fabric to a seat frame.

## Hog Ring Pliers

TLHGXX

- Straight 1440-AC with closing spring.

## Tailors Shears Right Handed

TLTS8135\_ \_

- Mundial forged steel shears, nickel plated. Classic style.

### Products in the range

TLTS813509 9" Classic Style

TLTS813510 10" Classic Style

TLTS813412 12" Tapered Style

## Silicone Star

SIS500

- 500ml Aerosol.
- Multi use silicone spray. Lubricates and protects. Odourless, clear film.

## Bradmill Brellaguard®

WSBBG\_ \_

- Water-based waterproofing treatment that repels dirt, grease, water and oil on most textile products including acrylic canvas.
- When applied to fabric surfaces the active ingredients in Brellaguard® function at a 'nano' level by reshaping and crystallising with dendrimers (star shaped polymers) to form an impenetrable shield.
- Suitable for awnings, rainwear, sportswear, foot wear. Not recommended for use on vinyl, plastics, rubber or imitation suede.
- Coverage: 1 litre will cover aprox. 10sqm

### Products in the range

WSBBG05 5 Litre

WSBBG750 750ml spray bottle

## Bradmill Water Based Bradproof™

WSBCPWP\_ \_

- Waterproofing product for reproofing of Polycotton canvas products.
- Water-based treatment that will restore a water repellent finish and inhibit mildew growth on used canvas goods. Do not apply to new canvas - it is unnecessary and may lead to impairment of appearance.
- Depending on fabric weight, 1 litre will treat approximately 6 m<sup>2</sup> (underside only) or 3 m<sup>2</sup> (if both sides of fabric are treated)

### Products in the range

WSBCPWP02 2 Litre

WSBCPWP05 5 Litre

WSBCPWP20L 20 Litre

## White Chinagraph Pencils

## Bostik® Glue Sticks Hot Melt

ADBGS\_ \_

- For use with an electric glue gun. Clear flexible glue that bonds instantly with no fumes or solvents.
- Designed for bonding plastics, polystyrene and polyurethane foam products, metal, paper, wood, ceramics, leather and fabric.

### Products in the range

ADBGS 10 pack

ADBGS15 15kg carton

## EQUESTRIAN

- Reid and Twiname provide an extensive range of equestrian supplies for the manufacture of equine and bovine covers.
- Since Reid and Twiname's inception back in 1923, we have been supplying saddlery parts. So it is no surprise today we have one of the largest ranges of saddlery hardware, the premium brand of cover canvas Regentex and the widest variety of accessories to satisfy all requirements in the manufacture of equine and bovine covers.

### Regentex® Canvas

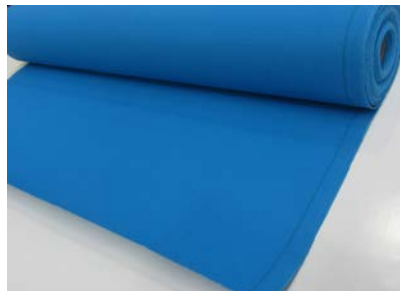

CVR\_ \_

- A dyed waterproofed canvas in roll lengths of approximately 50m.
- A 52% Polyester 48% Cotton blended fabric, woven as Rip Stop. The cotton content ensures breathability while the polyester content gives the fabric its strength.
- Suitable for horse covers and other high quality equine or animal cover products. \*\*Please note these are unproofed weights - add 2oz for proofed weight
- 102cm width

#### Products in the range

Green CVR\_ \_ GR  
12oz, 15oz, 18oz

Blue CVR\_ \_ BL  
12oz, 15oz, 18oz

Natural CVR\_ \_ NAT  
12oz

### Jute Canvas

CVJT

- Woven & Unproofed. Used for cow and calf covers, hotmix covers, wind breaks, welding screens and camp stretchers.
- Approx 100m bolts or 300m bales
- 20oz 92cm width

## Polyester Ripstop

CVPYL107

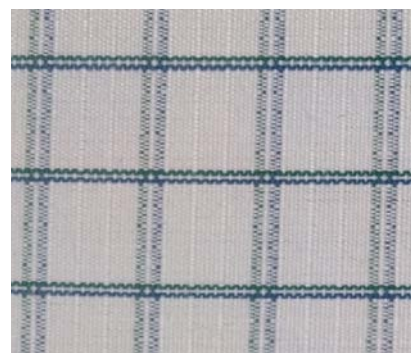

- 7oz 100% polyester woven as ripstop at 20mm intervals providing extra strength. Ideal lightweight summer animal cover.
- 104cm width

## Polyester Ripstop With Double Yarn Dyed Pattern 2m Wide

CVPY207

- 7oz polyester 5mm Ripstop with double yarn dyed pattern. Suitable for summer sheets for the horse cover market.
- 2m width.

## Cotton Duck Loomstate Canvas 10oz

CVLCD10

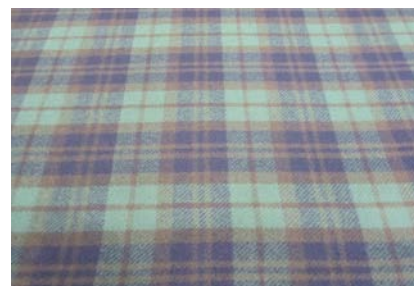

- A quality 100% cotton, unbleached, unproofed, loomstate woven canvas suitable for horse cover lining
- 183cm width

## Polypropylene Lining Highland Blackwatch

HCHBL

- For horse covers and industrial clothing, extra warm and durable.
- 144cm width

## Wool Lining

HCWL5\_

- New Zealand made.
- 500 gsm. Polyester carrier of 124 gsm
- 160cm width

### Products in the range

HCWL5N Natural

HCWL5W White

## Horse Cover Lining 500gsm 210cm Grey 25m Roll

HCLGR

- 500gsm, 210cm wide
- 100% polyester, soft feel.
- Needled with polypropylene mesh. Horse and general animal cover lining, exercise rugs, horse boot lining, general saddlery padding etc.
- 25m roll.

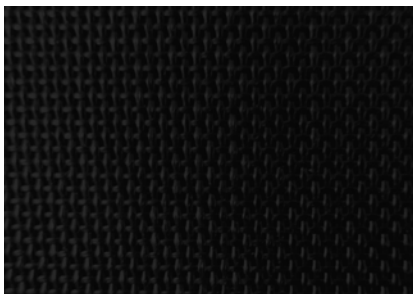

## Weathertex™ Outdoor Mesh

MEOD\_ \_

- 137cm x 50m, 1000 denier. 12 x 16 weave.
- Polyester yarn in PVC and calendered. U.V Resistant.

- Sold as hook and loop rolls separately.

### Products in the range

- 20mm Black and White
- 25mm Black, White
- 50mm Black, White

## Coats Corespun Poly/Cotton

TRPCM\_ \_

- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester.
- The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance.
- In wet, outdoor conditions the cotton wrap absorbs water and swells to fill the needle holes to prevent leakage.
- 2500m

### Products in the range suitable for equestrian applications

## Furniture Upholstery

Reid and Twiname continue to support our traditional industries by offering a large range into each sector and furniture is no exception. Our large range of consumable items gives the upholsterer many options to satisfy their daily requirements.

### Coverlight Fabric Black

CVCSP90

- Non woven spun polypropylene. Used as an economical alternative to calico or silesia. Suitable for various furniture industry uses eg chair, settee bottoms
- 90cm width. 100m roll.

### Calico Unbleached Calendared

CVCAL

- A top quality unbleached natural 100% cotton calico with a calendared finish. Rolls 50m approx. 135gsm, 60 x 60 thread count.
- Used for squab bottoms, furniture base covering, interior work curtains, painters drop sheets etc
- 120cm width. 50m roll.

## Furniture Elastic 50mm

ELWEB450

- Gold grade, 50m rolls

## Hessian

CVHS

- An open weave natural fabric made from jute fibres. Used in the furniture industry for antique work and decorative wall covering.
- 18oz 183cm wide and 50m roll approx.

## Jute Canvas

CVJT

- Woven & Unproofed. Used for cow and calf covers, hotmix covers, wind breaks, welding screens and camp stretchers.
- Approx 100m bolts or 300m bales
- 20oz 92cm width

## Jute Webbing

WEWJ630

- For use in furniture upholstery and bed slat spacing.
- 50mm x 30m. Sold by the roll

## Bonded Polyester Wadding

WDBP\_ \_ \_

- 152cm width.
- Ideal for furniture and clothing, cushions, squabs, sleeping bags, quilts, jackets etc.

### Products in the range

Vacuum packed

5oz 30m roll WDBP170V

8oz 20m roll WDBP270V

## Melty

WDM\_ \_ \_

- 150cm width. Vacuum packed.
- Ideal for furniture and clothing, cushions, squabs, sleeping bags, quilts, jackets etc.

### Products in the range

170gsm 25m roll WDM170

270gsm 20m roll WDM270

## Needled Polyester 150cm x 25m

WDNP

- 150cm width 25m roll.
- 100% polyester. Used for padding arms on lounge suites, door panel padding, HF welded pleats or designs on marine seating,

## Cushion Inner

WDCI50

- Quality polyester cushion inners with a non woven polypropylene outer.
- 45cm x 45cm

## Underfelt

FLA1

- Made from recycled fibres with a polyester binder. Used in furniture spring & arm covering, carpet underlay, sound deadening, panel lining for anti drumming.
- Weight 800gsm. 1.83m wide, 10 metre rolls. Thickness a nominal 10mm.

## Boston Boot Liner Charcoal

CPBBLCC

- Flexible lightweight polyester 280gsm fabric for lining boots or vehicle compartments, and as an alternative to spring protector
- Approx 50m roll

## Dunlop Bonded Foam 2.4sqm Sheet

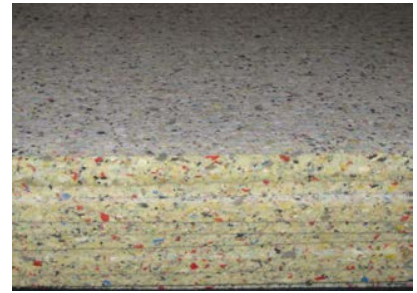

FMB\_ \_

- Medium/firm BP115 density. Used for gymnastic mats and equipment and applications where a firm foam base is important. Sheet size 1990 x 1190mm.

### Products in the range

FMB2585 25mm thickness

FMB5085 50mm thickness

## Dunlop Marathon Plain Foam SH 28-170 Grade

FMCP0\_ \_

- 2050mm x 1930mm 3.95sq metres,
- White coloured. Suitable for framing and firm seating.
- Density 28kg/m<sup>3</sup> (+/- 1kg). Hardness 170N IFD 40% (+/- 10N).
- 5 year domestic durability guarantee.

## Ados F55 General Purpose Sprayable 20L Clear

ADASC

- Sprayable, long tack contact adhesive. Specifically developed for commercial contractors, it is ideal for bonding large areas.
- Bonds most materials to each other or other substrates with the exception of PVC.

### Other Products in the range

ADASR 20 Litre Red

## Ados AA12 F38 Adhesive Clear

ADAA12\_ \_

- High temperature, short tack adhesive. Especially suited for areas where high temperatures are encountered, such as those exposed to direct sunlight, as well as heater and cooking surrounds. Covering 3-5 sqm
- Widely used by formica laminators, motor trimmers and insulation installers.

### Products in the range

ADAA1201 1 Litre

ADAA1204 4 Litre

ADAA1220 20 Litre

## Ados F92 Sprayable Adhesive 20L

ADA92C

- This clear adhesive is formulated to offer very controlled spraying with air driven spray equipment. It is a low viscosity product which gives a fine glue line. Coverage 4-8 sqm per litre, both surfaces. When sprayed it generates virtually no mist, so no airbourne waste and very little vapour.
- It has exceptional performance, superior bond strength and will bond most materials to each other or other substrates.

## Ados UHS Aerosol Adhesive 550ml

ADAUHS550

- An ultra high strength contact adhesive which gives an immediate and permanent bond on a variety of surfaces. It is formulated to give low soak, cure fast, dry clear and be non-staining.
- It has high heat resistance and is suitable on porous and non-porous surfaces making it ideal for a wide variety of applications, where permanent, high strength bonds are essential.
- Ados UHS uses a unique resin system making it resistant to breakdown from plasticiser migration. The UHS aerosol is fitted with a variable nozzle, which allows controlled accurate spraying.

## Ados F2 Adhesive

ADAF2L\_ \_

- A high performance general purpose contact adhesive. It is water resistant and flexible and its high bond strength makes it ideal for a wide range of uses. It is easily applied, durable and bonds instantly to most substrates
- Suitable for use on polyurethane foam, metals, pinex tiles, veneer, benchtop laminates, plaster, concrete, fibreglass, particle boards, timber, carpets, cork, plastics, cardboard, fabrics, leather, weatherseals, some cloth-backed vinyls.

### Products in the range

ADAF2L01 1 Litre

ADAF2A575 575ml Aerosol

## Bostik® Aerosol High Performance Adhesive 482 grams

ADBAHP

- High performance fast tack aerosol adhesive.
- Creates permanent or temporary bonds and is suitable for use in attaching carpet, door skins, and fabric in van conversions.
- Also bonds swimming pool liners, paper, cardboard, fabric, urethane foam, foil, metal, wood and various plastics. Useful for installing insulation, label applications, and permanently affixing name plates.

## Bostik® 555 Sprayable 4L Natural

ADB555N

- General purpose/laminating adhesive that can be applied by brush, roller or spray.
- Versatile adhesive which can be used to give high quality bonds to most common building substrates and general laminating operations.
- Plywood, galvanized and other metal sheets, wood veneer, PVC flooring, internal bracing and honey-comb stuffing, Gib-board etc. Ideally suited for bonding decorative laminates such as Formica, Laminex etc. to particle board surfaces.

## Bostik® 1181 General Purpose Adhesive

ADB1181\_ \_

- Trim and general purpose brushable adhesive. Has long open tack time coupled with moderately high heat resistance and excellent bond strength.
- Suitable for use on rubber/metal, foam, leather, rubber resin, soling compounds and cotton backed PVC. Does not stain light coloured cotton backed PVC under influence of UV light, and is therefore suited for motor trim work. Adhesive is not designed to bond unsupported PVC.

### Products in the range

ADB118101 1 Litre Brushable Natural

ADB1181B20 20 Litre Brushable Natural

ADB1181S20 20 Litre Sprayable Natural

## Ados Solvent N

ADANL\_ \_

- General purpose solvent, cleaner and thinner.
- Can be used as a thinner with F2, F22, F38 and F55 adhesives, as well as for pre-wiping surfaces, softening flooring adhesives, and cleaning down shower units and other surfaces like PVC pipes and fittings.
- Can also be used as a general purpose cleaner of brushes, materials and equipment contaminated by neoprene adhesives

### Products in the range

ADANL01 1 Litre

ADANL04 4 Litre

ADANL20 20 Litre (Indent)

## Bostik® Solvent No.2 4L

ADBSN2\_ \_

- Aromatic solvent for clean-up & dilution of Neoprene adhesive. Can also be used for surface cleaning prior to bonding on surfaces which will not be attacked by the solvent.

### Products in the range

ADBSN220 20 Litre

ADBSN204 4 Litre

## Coats Corespun Poly/Cotton M36 Thread

TRPCM36\_ \_

- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester.
- The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance. In wet, outdoor conditions the cotton wrap absorbs the water and swells to fill the needle holes to prevent leakage.

## Brahma Leather

LHB\_ \_

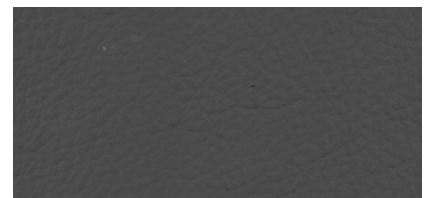

- Corrected grain cow hide
- Size: 5.0 m2 approx. per average hide
- Thickness: 1.00 mm
- This leather passes the Flammability Test Res.A652 (16) required by the International Maritime Organisation.
- This leather passes all applicable EEC Standards.
- Brahma hides have a hump hole that has been zipped and the hide is branded.
- Note: To convert textile fabric to the equivalent leather requirements, as a guide, add 60% to the textile meterage eg. 20 metres of textile converts to 32m2 of leather.

## Capri Leathercloth

- Width: 137 cm.
- Thickness: 1.1mm
- Weight: 652gsm
- Roll Length: 30 metres (nominal).
- Backing: Polyester/Cotton
- Warranty: Two year warranty against de-lamination/cracking.
- UV Stabilised: Prevents cracking and wear from the sun's damaging rays. Colourfastness to light: AS1441.11
- Abrasion Resistance: Wyzenbeck:AS2001.2.30 50,000+ cycles
- Flame Retardency: Tested to AS1530.3 Ignitability Index 16, Heat Evolved Index 0, Spread of Flame Index 0, Smoke Developed Index 5
- Meets the International Maritime Organisation test standards for FR. A.652(16)
- Smouldering cigarette will not ignite upholstery material – Passes cigarette burn test: AS3744.1
- Bio-Pruf™ treated. Built in protection from microbial and fungal attack and the staining, odours and structural degradation that can accompany it.
- The Permashield® coating protects the upholstery surface as well as offering a unique 'anti graffiti' finish which helps control stubborn stains and graffiti.
- Warranty: Two year warranty against de-lamination/cracking.

## HORTICULTURE, BUILDING & GEO-TEXTILES

- We stock a range of products sourced from Cosio Industries, who are New Zealand's leading supplier of plastic films, reservoir linings, geotextiles and fabrics for industrial, construction, horticultural and agricultural applications.

### Polythene 125mu

CI125\_ \_ \_ \_

- 125 micron polythene.
- Suitable for wrapping applications and ground cover protection.
- Sold by the roll only

#### Products in the range

CI125250B 2m x 50m Black

CI125250N 2m x 50m Natural

### Polythene 250mu Black

CI250425B

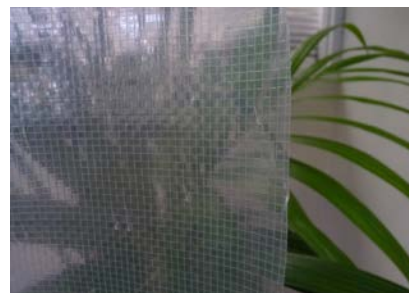

- Polythene films can be used for machinery protection, weather protection, moisture barriers and concrete underlay.
- 4m x 25m.
- Sold by roll only.

## Polygro R 2m Wide Woven Clear

CIPGR2CL

- Polygro (R) is a reinforced polyethylene designed for use when a high strength film is required. Woven from high quality PE, Polygro (R) resists puncturing and tearing.
- It is natural in colour giving it a high light transmission (80 - 85% approx). Suitable for greenhouse sides and in some cases it can be used as the roof plastic.
- Approx 180gsm. Life expectancy 3 - 5 yrs.
- 50m rolls Indent only

## Polygro Greenhouse Film 200Mu Natural

CIGHDF\_M

- EVA Co-extruded UV stabilised greenhouse film is designed to take a real punishment in the harsh ultra violet seen in NZ.
- The special formulations ensure the Polygro 200 will keep your crop protected and in peak growing conditions long after plain films have degraded and costly replacements are required. Polygro200 will out perform most imported plastics to give longer life.
- Prevents dripping with anit-fog and anti-drip additives which have been proven exhaustively in the field. Warranty - 4 season pro-rata replacement warranty against UV breakdown.

### Products in the range

CIGHDF2M 2m wide

CIGHDF4M 4m wide

## UltraPro XS Windbreak

CIWINDXS1\_ \_

- A premium knitted windbreak used in the agricultural and horticultural industry throughout NZ. Can be used for most applications including industrial and building sites, farm fences and boundary fences. Sold by roll only.
- Has fabric eyelets on the sides to assist with installation. Use Polyclips, nail plates or battens to secure to fences or framing. Lifespan 10 years.
- 140gsm, HDPE, UV stable. Wind porosity 55% approx.

### Products in the range

## Geocil Weed Mat

CIGEO\_ \_

- A non woven weed control fabric which allows air and water to pass through, promoting better plant health. Weight is 60gm<sup>2</sup> with a life expectancy of between 3-5 yrs. Sold by roll only.
- Manufactured from spunbonded polypropylene and UV stabilised.

### Products in the range

CIGEO120R 1m x 20m Black

CIGEO150 1m x 50m Black

CIGEO250 2m x 50m Black

## Ecocil Weedmat

CIGEOCO\_ \_

- A lightweight non woven weedmat, which allows air and water to pass through. Weight is 50gm<sup>2</sup> with a life expectancy of between 3-5 yrs. Sold by roll only.
- Manufactured from spunbonded polypropylene and UV stabilised.

### Products in the range

CIGEOCO1820 1800mm x 20m Black

CIGEOECO90010 900mm x 10m Black

CIGEOECO90020 900mm x 20m Black

## Woven Weedmat/Visual Barrier

CIWEED\_ \_

- Commercial grade woven weedmat. Weight is 105gsm. Life expectancy 3/5 yrs. Shrinkage of up to 2% when exposed to sunlight. Sold by roll only.
- Manufactured from high quality PE yarns and specifically woven to allow air and water to permeate through, promoting better plant health. UV stabilised to give a long life under the harsh NZ sun.

### Products in the range

CIWEED09150 91cm x 50m Indent only

CIWEED18350 183cm x 50m

CIWEED4550 4.5m x 50m

## Jute Tex Biodegradable Ground Cover

CIJUTE\_ \_

- Jute Tex is made from biodegradable golden jute, it is the ideal solution for erosion control, re-vegetation, landscaping or anywhere a biodegradable blanket is required.
- 350gms PSQM with an average life of 6-12 months depending on conditions. Absorbs water, promotes plant health, helps suppress weeds, natural fertiliser

### Products in the range

CIJUTE18320 183cm x 20m

CIJUTESQ100 50cm x 50cm 100 Pack

## Birdnet

CIBIRD\_ \_

- Manufactured from UV stabilised monofilament HDPE for longer life. The 16mm diamond hole prevents even the smallest birds damaging crops. 30gsm.
- Used by fruit, grape and crop growers.

### Products in the range

CIBIRD450BK 4m x 50m Black

CIBIRD450G 4m x 50m Green

## Micronet

CIMCA\_ \_ \_

- A UV stabilised clear knitted polyethylene which allows air and moisture penetration
- A strong, light fabric with reinforced edges ideal for all vegetable and plant covering. Protects plants from light hail, rain and birds.

### Products in the range

CIMCA250 2m x 50m

CIMCA450 4m x 50m Indent only

## Frostguard 30gsm

CIFG210\_ \_

- A non woven frost fabric, spunbonded polypropylene. Frost settles on the fabric rather than on the delicate leaves and stems of the plants.
- Prevent frost damage and enhances plant growth by creating a microclimate for crops in colder months. Frostguard in an air and water permeable sheet that allows plants to transpire and breathe normally.
- Sold roll only.

### Products in the range

CIFG210030 2m x 100m

## Bug Net 4m Wide Clear

CIQMNM4CL

- Bug net is a light weight economical anti insect mesh which can help prevent damage caused by insects. Bug net is clear with minimal shade factor and will let air and water permeate through promoting plant health.
- 45gsm knitted HDPE, 2mm x 1mm mesh approximate. 15% shade factor approximate.
- 30m roll. Sold roll only.

## Hexagonal Galvanised Wire Mesh

CIWIRG\_ \_

- Wire Gauge - 0.7mm diameter
- Applications: Chicken cages, Pest protection, Bird aviaries, Temporary barriers.
- Sold by the roll only,

### Products in the range

CIWIRG13950 13mm x 90cm x 50m Indent Only

CIWIRG50950 50mm x 90cm x 50m

## Hexagonal PVC Coated wire mesh

CIWIRH\_ \_150G

- Green coating over hexagonal galvanised wire. Wire gauge 0.7mm diameter.
- Applications: Chicken cages, Pest protection, Bird aviaries, Temporary fencing.
- Sold by the roll only.

### Products in the range

CIWIRH25150G 25mm x 1m x 50m

CIWIRH50150G 50mm x 1m x 50m

## Garden Trellis

CIGT\_ \_

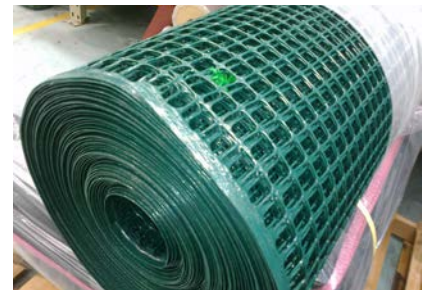

- Manufactured from Virgin resin HDPE. Use for fencing around home, plant protection and support for climbing plants.
- Sold by the roll only.

### Products in the range

CIGT179030G 17mm x 0.9m x 30m Green

CIGT509030G 50mm x 0.9m x 30m Green

## Ultra Pro Safety Barrier Mesh

CISFBM9030

- Manufactured from UV stabilised orange LDPE. Ultra-Pro is a premium high visibility safety fence for all construction, sports events and activities where control is required.
- Ultra-Pro is rigid so will require less support than other site fencing.
- 320gsm. Mesh size 50mm x 50mm. 0.9 m x 30 m
- Sold by the roll only.

## Ground Staples

CIPINS\_3200

- Galvanised ground staples for weedmat
- 200 pack

### Products in the range

CIPINS13200 13cm

CIPINS23200 23cm

## Jute Webbing

WEWJ630

- Used for tree ties and also suitable as jute upholstery webbing.
- 50mm wide 30m roll. Sold by the roll only.

## Greenhouse Tape

CIGH4825

- Can be used for joining and repairing greenhouse and hothouse polythene coverings, and as a general all weather repair tape for plastics.
- Sold by the roll only.

### Products in the range

CIGH4825 48mm x 25m

CIGH9625 96mm x 25m Indent only

## Polyclips Windbreak Clips

CIPC500

- Fastenings for windbreak and shade cloth
- Box of 500.

## INDUSTRIAL CLOTHING

Industrial Clothing continues to evolve where safety, durability and fashion are all requirements in today's market. Our range is dominated by narrow fabrics and complimented with some specialised wider width fabrics and hardware items.

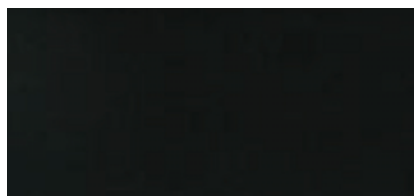

### Bradmill General Canvas 12oz

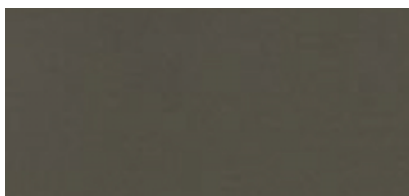

CVBG12\_ \_

- Suitable for general canvas work such as seat covers, bags and animal covers. Manufactured with a soft feel for ease of handling and fabrication. This single dip canvas is not suitable for tenting applications

- ZSCC5BKSSAL Auto Lock Single Black Short Tag
- ZSCC5NPSLNL Non Lock Single Nickel Plated Long Tag
- ZSCC5XPBKSLLNL Plastic Black Single Non Lock Long Tag

## Coats Dabond Outdoor Polyester Thread

- Demonstrating superior sewing performance, new Dabond Outdoor has been specifically designed for outdoor life. Ideal for manufacturing sails and countless other outdoor and marine applications, it is a bonded, twisted continuous filament polyester thread.
- Unlike conventional polyester bonded threads, it has exceptional bond cohesion, giving it excellent sewing properties in the toughest conditions. It is completely colourfast, with excellent UV, vinyl, abrasion and chemical protection – particularly relevant in a COVID-affected world where stringent cleaning processes have become the norm.

## Coats Corespun Poly/Cotton 2500m

TRPCM\_ \_

- Recommended for canvas tarpaulins.
- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester.
- The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance. In wet, outdoor conditions the cotton wrap absorbs the water and swells to fill the needle holes to prevent leakage.

## MARINE

- New Zealand's marine environment has played a key role in defining the cultural and economic development of our nation. New Zealand has a significant fishing industry, and for many New Zealanders the marine environment is a place of relaxation and recreation. New Zealand's marine environment is more than 20 times larger than it's landmass, it's exposure and close proximity to the Ozone layer creates one of the harshest climatic conditions in the world. Reid and Twiname have been supplying reliable products that have stood the test of time for decades. Proven brands like Recasens Canvas, Oceans Vinyl and TopTarp PVC to name just a few.

## Brahma Leather

- Corrected grain cow hide
- Size: 5.0 m2 approx. per average hide
- Thickness: 1.00 mm
- This leather passes the Flammability Test Res.A652 (16) required by the International Maritime Organisation.
- This leather passes all applicable EEC Standards.
- Brahma hides have a hump hole that has been zipped and the hide is branded.
- Note: To convert textile fabric to the equivalent leather requirements, as a guide, add 60% to the textile meterage eg. 20 metres of textile converts to 32m2 of leather.

## SHOCKCORD

SH\_ \_

- NZ made and designed to be long lasting and maintain >100% stretch and recovery, Prout Shockcord uses only the highest quality pure latex rubber. The outer cover is braided with colourfast polyester to provide superior protection against abrasion and NZ's harsh UV.
- It has a two component construction with an extremely tough woven outer sheath covering a multi-strand rubber core. The cord is light-weight, strong, wear-resistant and long lasting. All of our shock cord is capable of 100% (+/- 10%) elongation.
- Ideal for light-weight luggage straps, luggage nets, tie downs for tarpaulins, car/boat/trailer covers etc. Widely used on ute covers, garden/outdoor furniture and on canoes, kayaks and other small boats.

## Coats Dabond Polyester Thread

- Demonstrating superior sewing performance, new Dabond Outdoor has been specifically designed for outdoor life. Ideal for manufacturing sails and countless other outdoor and marine applications, it is a bonded, twisted continuous filament polyester thread.
- Unlike conventional polyester bonded threads, it has exceptional bond cohesion, giving it excellent sewing properties in the toughest conditions. It is completely colourfast, with excellent UV, vinyl, abrasion and chemical protection – particularly relevant in a COVID-affected world where stringent cleaning processes have become the norm.

White TRH10WT

## Coats Corespun Poly/Cotton 2500m

TRPCM\_ \_

- Suitable for marine squab applications and still used by some of the trade for boat covers to give that extra water resistance, achieved due to the cotton expanding when exposed to moisture.
- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester.
- The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance. In wet, outdoor conditions the cotton wrap absorbs the water and swells to fill the needle holes to prevent leakage.

## Webtex® Polyester Heavy Weight Webbing

WEWPYH25BK

- A heavy duty polyester webbing manufactured for applications where extra strength is required - such as shade sails.
- Tensile strength average 1800 kgs.
- 50m roll.
- 25mm

## Webtex® Seatbelt Webbing

- 100% polyester seatbelt style webbing suitable for shade sail reinforcement and general webbing application.
- Break Strength 1000kg 25mm, 2000kg 50mm.
- This is a seat belt style webbing and is not suitable for uses where certified seat belt webbing is required.
- 100m roll.

## Stayput® T Lock

SYTL\_ \_

- The T Lock fastener consists of three 100% corrosion free nylon composite parts. A Cap, a Screw and a Base. All that remains when the cover is removed is a flat unobtrusive base (low 5mm profile) less likely to get knocked or broken like traditional fasteners. The base should be fixed using a 6 gauge screw or a 3mm rivet.
- The cap and key are designed to be permanently installed through a Carr Fastener SP4 eyelet or grommet. There is a 5mm clearance between the bottom of the cap and the flange at the top of the key.
- To secure your cover simply insert the Key into the Base and rotate the Cap 1/4 turn clockwise until engaged with the Base. To remove simply turn the Cap 1/4 turn counter clockwise.
- Individual components sold in packs of 25

### Products in the range

**Base Black SYTLBBK White SYTLBWT**

**Cap Black SYTLCBK White SYTLCWT**

**Key Black SYTLKBK White SYTLKWT**

## Webtex® UV Elite Polypropylene Binding

## Ados F92 Sprayable Adhesive 20L

ADA92C

- This clear adhesive is formulated to offer very controlled spraying with air driven spray equipment. It is a low viscosity product which gives a fine glue line. Coverage 4-8 sqm per litre, both surfaces. When sprayed it generates virtually no mist, so no airbourne waste and very little vapour.
- It has exceptional performance, superior bond strength and will bond most materials to each other or other substrates.

## Ados F38 Adhesive

ADAA12\_ \_

- High temperature, short tack adhesive. Especially suited for areas where high temperatures are encountered, such as those exposed to direct sunlight, as well as heater and cooking surrounds. Covering 3-5 sqm per litre.
- Widely used by formica laminators, motor trimmers and insulation installers.

### Products in the range

ADAA1201 1 Litre

ADAA1204 4 Litre

ASAA1220 20 Litre

## Ados F55 General Purpose Sprayable

ADAS\_

- Sprayable, long tack contact adhesive. Specifically developed for commercial contractors, it is ideal for bonding large areas.
- Bonds most materials to each other or other substrates with the exception of PVC.

### Products in the range

ADASC 20 Litre Clear

ADASR 20 Litre Red

## Ados F2 Adhesive

ADAF2L\_ \_

- A high performance general purpose contact adhesive. It is water resistant and flexible and its high bond strength makes it ideal for a wide range of uses. It is easily applied, durable and bonds instantly to most substrates. Coverage 4 sqm per litre.
- Suitable for use on polyurethane foam, metals, pinex tiles, veneer, benchtop laminates, plaster, concrete, fibreglass, particle boards, timber, carpets, cork, plastics, cardboard, fabrics, leather, weatherseals, some cloth-backed vinyls.

### Products in the range

ADAF2L01 1 Litre

ADAF2A575 575ml Aerosol

## Ados UHS Aerosol Adhesive 550ml

ADAUHS550

- An ultra high strength contact adhesive which gives an immediate and permanent bond on a variety of surfaces. It is formulated to give low soak, cure fast, dry clear and be non-staining.
- It has high heat resistance and is suitable on porous and non-porous surfaces making it ideal for a wide variety of applications, where permanent, high strength bonds are essential.
- Ados UHS uses a unique resin system making it resistant to breakdown from plasticiser migration. The UHS aerosol is fitted with a variable nozzle, which allows controlled accurate spraying.

## Bostik® Aerosol High Performance Adhesive

ADBAHP

- Fast tack aerosol adhesive 482gm.
- Creates permanent or temporary bonds and is suitable for use in attaching carpet, door skins, and fabric in van conversions.
- Also bonds swimming pool liners, paper, cardboard, fabric, urethane foam, foil, metal, wood and various plastics. Useful for installing insulation, label applications, and permanently affixing name plates.

## Bostik® 555 Sprayable Natural

ADB555N

- General purpose/laminating adhesive that can be applied by brush, roller or spray. Versatile adhesive which can be used to give high quality bonds to most common building substrates and general laminating operations.
- Plywood, galvanized and other metal sheets, wood veneer, PVC flooring, internal bracing and honey-comb stuffing, Gib-board etc. Ideally suited for bonding decorative laminates such as Formica, Laminex etc. to particle board surfaces.
- 20L

## Bostik® 1181 General Purpose Adhesive

ADB1181\_ \_

- Trim and general purpose brushable adhesive. Has long open tack time coupled with moderately high heat resistance and excellent bond strength.
- Suitable for use on rubber/metal, foam, leather, rubber resin, soling compounds and cotton backed PVC. Does not stain light coloured cotton backed PVC under influence of UV light, and is therefore suited for motor trim work. Adhesive is not designed to bond unsupported PVC.

### Products in the range

ADB118101 1 Litre Brushable Natural

ADB1181B20 20 Litre Brushable Natural

ADB1181S20 20 Litre Sprayable Natural

## Ados Solvent N

ADANL\_ \_

- General purpose solvent, cleaner and thinner.
- Can be used as a thinner with F2, F22, F38 and F55 adhesives, as well as for pre-wiping surfaces, softening flooring adhesives, and cleaning down shower units and other surfaces like PVC pipes and fittings.
- Can also be used as a general purpose cleaner of brushes, materials and equipment contaminated by neoprene adhesives

### Products in the range

ADANL01 1 Litre

ADANL04 4 Litre

ADANL20 20 Litre Indent only

## Bostik® Solvent No.2

ADBSN2\_ \_

- Aromatic solvent for clean-up & dilution of Neoprene adhesive. Can also be used for surface cleaning prior to bonding on surfaces which will not be attacked by the solvent.

### Products in the range

ADBSN204 4 Litre

ADBSN220 20 Litre

## PVC Trim Board

BDT102

- 2440mm x 1220mm x 10mm White
- Ideal for marine and general trim work - will not absorb water. Lighter than plywood or any other wooden boards

## Tailors Shears Right Handed

TLTS8135

- Mundial forged steel shears, nickel plated.

### Products in the range

TLTS813509 9" Classic Style

TLTS813510 10" Classic Style

TLTS813412 12" Tapered Style

## Delfast Staples 80 Series Stainless Steel

SP80SS\_

- Crown width 12.9mm, Wire size 0.6 x 0.95mm, 21 gauge.
- Suitable for Marine Upholstery and Motor Trimming industries.

### Products in the range

SP80SS4 4mm

SP80SS6 6mm

SP80SS8 8mm

SP80SS10 10mm

SP80SS12 12mm

## Delfast Staple Air Gun 80 Series

SPAG80

- Top quality stapler with bottom loading magazine. Perfect balance and lightweight. Suitable for marine upholstery and motor trimming industries.

## Bradmill Brellaguard®

WSBBG05\_ \_

- Water-based waterproofing treatment that repels dirt, grease, water and oil on most textile products including acrylic canvas.
- When applied to fabric surfaces the active ingredients in Brellaguard® function at a 'nano' level by reshaping and crystallising with dendrimers (star shaped polymers) to form an impenetrable shield.

### Products in the range

WSBBG750 750ml spray bottle

WSBBG05 5 Litre

## Canopy Fittings

Reid and Twiname are the sole NZ distributor for Llaza - providing quality European designed and manufactured awnings.

We currently stock

Monobloc 350 - lateral arm awning

Microbox 300 - drop arm awning

Modulbox 400 - cassette and open style awnings

LLAZA WORLD S.A are experts in the design and manufacture of sunprotection systems. Their vision is to be the worldwide technological benchmark company for any effective sun protection project.

The brand was established in Reus, Spain in 1964 and currently markets its products in over 50 countries. Its extensive history and its presence in the international market are indications of Llaza's leadership in the solar protection industry. Llaza's success is owed to their commitment to three key areas: innovation, quality and market development.

LLAZA is a family business with over 50 years of history.

In 1964 TALLERES LLAZA was founded, the first company in Spain devoted to manufacturing awning mechanisms. With over 50 years experience that provides an extensive know-how and that has accumulated hundreds of patents and utility models registered under the LLAZA brand.

### Industrial Capacity

LLAZA facilities and production processes are designed for competitiveness. Their factory is a major technology centre specialised in sun protection systems and covering 26,000 m<sup>2</sup>. It features all the latest plant equipment and full vertical integration of its industrial activities. This is the base from which competitive solutions are supplied to the highest quality standards.

Production capacity of 450,000 complete awnings systems per year.

## Llaza Monobloc 350 Awning Range

### SIMPLICITY AND STYLE

- This is an awning from the invisible arm range featuring the Monobloc system, a self-bearing square bar which enables the awning to cover large areas simply and effectively.
- Lacquer in accordance with QUALICOAT standards
- Stainless steel screws and bolts
- The system is made primarily out of aluminium, which is used in the frame of the awning. Aluminium provides strength, has a long lifespan and is easy to use.
- LLAZA systems are manufactured with top quality materials and are the result of significant research and development efforts
- Llaza awnings are supplied unskinned. We stock a range of acrylic canvases in plains and stripes as well as outdoor mesh suitable for awning applications.
- Skinning service available.

### Configurations

Our 2 arm Llaza Monobloc 350 is suitable for an up to 4 metre to 5.8 metre width awning. The options are:

- White, Silver or Black
- Motorised or Manual
- Wall or Ceiling/Soffit Mounted
- 2m, 2.5m, 3m or 3.5m arms

- LLAZA-ART SYSTEM arms provide optimal internal transmission of tension.
- Flat, flexible belt which makes the awning stronger, more resistant, more durable and more aesthetically pleasing than traditional transmission systems.
- The pieces of the arms are assembled before they are sent off to be lacquered in order to protect the joints and to make them more pleasing to the eye.
- The shape of the arms and their configuration when mounted helps to keep the fabric from rubbing on the elbow joints when the awning is opened or closed.
- The use of a belt keeps the lacquer on the arms from being rubbed off as commonly happens with cable and chain systems.
- Under normal use the arms will exceed 60,000 operational cycles

## Llaza Modulbox

Compact and modern design. Different configurations within the same model adapt it to the needs of each installation.

2 models to choose from..

**Full Box** - this model features a full cassette box which provides protection for the awning fabric and the arms when closed and a streamlined profile. Recessed brackets enable a close fit to the building.

**Open** - this model is a simple cost effective lateral arm awning. An optional pelmet is also available to assist with fabric protection. Pitch control as standard allows the adjustment of the pitch from 0 - 45 degrees to maximise the shade protection.

- Available in White and Anthracite.
- Motorised or Manual.

LLAZA-ART SYSTEM arms provide optimal internal transmission of tension.

- Flat, flexible belt which makes the awning stronger, more resistant, more durable and more aesthetically pleasing than traditional transmission systems.
- The pieces of the arms are assembled before they are sent off to be lacquered in order to protect the joints and to make them more pleasing to the eye.
- The shape of the arms and their configuration when mounted helps to keep the fabric from rubbing on the elbow joints when the awning is opened or closed.
- The use of a belt keeps the lacquer on the arms from being rubbed off as commonly happens with cable and chain systems.
- Under normal use the arms will exceed 60,000 operational cycles.

## Llaza Microbox 300

SMALL IN SIZE, BIG IN SOLUTIONS

- This is a self-protecting awning whose structure makes it ideal for installation on windows.
- The self-protecting system helps keep the fabric in perfect condition.
- Designed to perfectly integrate the awning with the facade it is mounted on.
- Llaza awnings are supplied unskinned. We stock a range of acrylic canvases in plains and stripes as well as Recscreen outdoor mesh suitable for awning applications.
- Available in White with arm lengths of 800mm, 1000mm and 1200mm, Black with 1000mm arms
- Width can be up to 5 metres.
- Skinning service available.

## Capri Leathercloth

- Width: 137 cm.
- Thickness: 1.1mm
- Weight: 652gsm
- Roll Length: 30 metres (nominal).
- Backing: Polyester/Cotton
- Warranty: Two year warranty against de-lamination/cracking.
- UV Stabilised: Prevents cracking and wear from the sun's damaging rays. Colourfastness to light: AS1441.11
- Abrasion Resistance: Wyzenbeck:AS2001.2.30 50,000+ cycles
- Flame Retardency: Tested to AS1530.3 Ignitability Index 16, Heat Evolved Index 0, Spread of Flame Index 0, Smoke Developed Index 5
- Meets the International Maritime Organisation test standards for FR. A.652(16)
- Smouldering cigarette will not ignite upholstery material – Passes cigarette burn test: AS3744.1
- Bio-Pruf™ treated. Built in protection from microbial and fungal attack and the staining, odours and structural degradation that can accompany it.
- The Permashield® coating protects the upholstery surface as well as offering a unique 'anti graffiti' finish which helps control stubborn stains and graffiti.
- Warranty: Two year warranty against de-lamination/cracking.

## SHOCKCORD

SH\_ \_

- NZ made and designed to be long lasting and maintain >100% stretch and recovery, Prout Shockcord uses only the highest quality pure latex rubber. The outer cover is braided with colourfast polyester to provide superior protection against abrasion and NZ's harsh UV.
- It has a two component construction with an extremely tough woven outer sheath covering a multi-strand rubber core. The cord is light-weight, strong, wear-resistant and long lasting. All of our shock cord is capable of 100% (+/- 10%) elongation.
- Ideal for light-weight luggage straps, luggage nets, tie downs for tarpaulins, car/boat/trailer covers etc. Widely used on ute covers, garden/outdoor furniture and on canoes, kayaks and other small boats.

## Coats Dabond Polyester Thread

- Demonstrating superior sewing performance, new Dabond Outdoor has been specifically designed for outdoor life. Ideal for manufacturing sails and countless other outdoor and marine applications, it is a bonded, twisted continuous filament polyester thread.
- Unlike conventional polyester bonded threads, it has exceptional bond cohesion, giving it excellent sewing properties in the toughest conditions. It is completely colourfast, with excellent UV, vinyl, abrasion and chemical protection – particularly relevant in a COVID-affected world where stringent cleaning processes have become the norm.

## Coats Corespun Poly/Cotton 2500m

TRPCM\_ \_

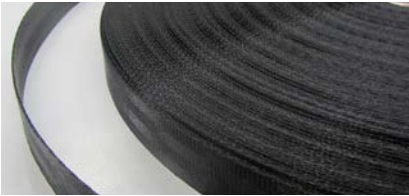

- Recommended for caravan awnings and tents.
- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester. The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance. In wet, outdoor conditions the cotton wrap absorbs the water and swells to fill the needle holes to prevent leakage.

## VELCRO® Brand Pressure Sensitive Tape

FAVP\_ \_

- Pressure sensitive acrylic self adhesive with superior bond strength and high temperature performance. 25m roll.

Available in

- 20mm Black and White
- 25mm Black and White
- 50mm Black and White.

## Texilon® Pressure Sensitive Tape

- Not suitable for use in exterior applications. 25m roll.
- 25mm Black and White Hook and Loop
- 50mm Black and White Hook and Loop

## ONE-WRAP® Continuous

- Continuous double sided Hook and Loop. ONE-WRAP® brand back to back fastening system features a polyethylene hook flame laminated to a nylon loop. Re-usable and infinitely adjustable, ONE-WRAP® brand tape can be used for any size circumference and easily cut to length.

Available in Black 19mm, 25mm and 50mm. 20m roll..

## VELCRO® Brand ONE-WRAP® Straps

- This simple wrap around fastener can be used hundreds of times and is highly adjustable, with secure closure every time. There are no buckles to get in the way and cause damage.
- Used for cable ties, pipe hangers, hose tidies and much more.
- 200mm x 12mm x 20mm. 100 straps per roll.

## ReZip UV 5 Coil Continuous Zip 100m

ZCC5BK

- UV treated to better resist damage from ultraviolet rays.

## Bradmill Water Based Bradproof™

WSBCPWP\_ \_

- Waterproofing product for reproofing of Polycotton canvas products.
- Water-based treatment that will restore a water repellent finish and inhibit mildew growth on used canvas goods. Do not apply to new canvas - it is unnecessary and may lead to impairment of appearance.

### Products in the range

WSBCPWP02 2 Litre

WSBCPWP05 5 Litre

WSBCPWP20L 20 Litre

## Bradmill Brellaguard®

WSBBG\_ \_

- Water-based waterproofing treatment that repels dirt, grease, water and oil on most textile products including acrylic canvas.
- When applied to fabric surfaces the active ingredients in Brellaguard® function at a 'nano' level by reshaping and crystallising with dendrimers (star shaped polymers) to form an impenetrable shield.
- Suitable for awnings, rainwear, sportswear, foot wear. Not recommended for use on vinyl, plastics, rubber or imitation suede.
- Coverage; 1 litre will cover aprox. 10sqm

### Products in the range

## Bradmill Superstop 12oz

CVBSS12\_ \_

- Medium weight tarpaulin fabric. Features high tenacity corespun yarns in groups of three that are genuinely Ripstop® woven over a polyester cotton blended body structure.
- In addition to the high tear strength, the canvas has an XLP finish, which imparts excellent water and rot proofing properties.
- Suitable for medium duty road transport tarpaulins, ute covers and hire tarpaulins and other high strength low cost applications.
- Finish XLP Pigment coloured, waterproofed and rot proofed.
- Fibre Content Body 52% polyester, 48% cotton.  
Ripstop®Cotton/polyester (high tenacity) corespun.
- Weave Plain weave with 3 corespun yarns woven as Ripstop® every 21 mm in warp and weft.
- Mass Loomstate: 415 g/m2 (12.2 oz/yd2) Nominal  
Proofed: 510 g/m2 (15.0 oz/yd2)
- Width 200 cm
- Roll Length 50 m

### Typical Performance

Breaking Force (N) AS2001.2.3A Warp 2300 Weft 2000

Tearing Force (N) AS2001.2.10\* Warp 380 Weft 280

\*Modified test that averages results of five Ripstop® peaks

### Water Resistance

Hydrostatic pressure (kPA) (AS2001.2.17): 7.0 Cone leakage (ml)  
(AS2001.2.18): 0

### Shrinkage

Relaxation shrinkage (%): Warp: -2.5 Weft: -0.8

Relaxation shrinkage test results provide a good guide as to how the canvas will react to everyday use and are useful in determining the best way to cut and style products.

### Colour Fastness

Light fastness (AS2001.4.21): 6-7

Rub fastness (AS2001.4.3): Dry 3-4 Wet 4

Total Colour Difference (compared to nominated standard): CMC 2:1 DE  
<1.0

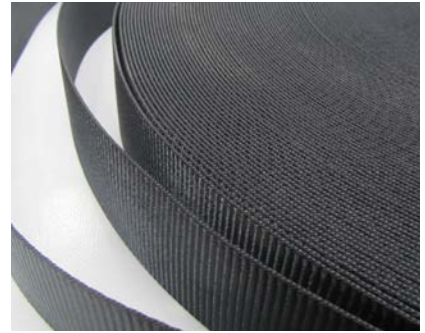

Dark Green CVBSS12DGR

## Webtex® Curtainsider Webbing 44mm

WEWCS44BK

- 100% polyester heavy duty webbing with 3000kg break strength. Suitable for safety harnesses or base straps for curtain sided trucks.
- Tensile Test Results: Average 3163 kg
- Standard: AS 1891.1 Industrial Safety Belts and Harness

## Coats Dabond Polyester Thread

- Coats Dabond is a bonded, twisted continuous filament polyester thread. Combining superior sewing performance with excellent UV and abrasion protection, Coats Dabond is specifically designed to provide resistance against harsh weather conditions. Coats Dabond can withstand UV degradation in all outdoor applications that are exposed to marine water and sunlight.
- Unique bonding technology that safeguards against ply untwisting in zig zag sewing and can sew through many layers of heavily finished fabric. Dual level lubricated finish for needle heat protection and smooth sewing. Excellent bleach, mildew and rot resistance

## Coats Corespun Poly/Cotton 2500m

TRPCM\_ \_

- Recommended for canvas tarpaulins.
- Coats Terko Satin is a cotton wrapped polyester corespun thread with a glaze finish. This thread combines the excellent sewing performance of cotton with the superior strength and elongation characteristics of continuous filament polyester.
- The cotton wrap protects the polyester core from needle heat even in the most demanding of applications. The glaze finish binds together the fibrous surface of the thread and creates a lustrous finish with enhanced abrasion resistance. In wet, outdoor conditions the cotton wrap absorbs water and swells to fill the needle holes to prevent leakage.

RPLRRS

- Zinc plated.
- Dimensions - 102mm x 95mm. Hole Size - 74mm x 79mm. Recess - 20mm. Cut Out - 72mm x 72mm. With Spring.

## Lashing Ring Stainless Steel Small Single Recessed

RPLRSSRS

- Dimensions - 102mm x 95mm. Hole Size - 74mm x 79mm. Recess - 25mm. With Spring.

## Lashing Ring Large Single Recessed

RPLRR

- Zinc plated.
- Dimensions - 125mm x 115mm. Cut Out Size - 78mm x 84mm. Recess - 25mm.
- Fixing should comply with the heavy vehicle load code.

## Ados Solvent N

ADANL\_ \_

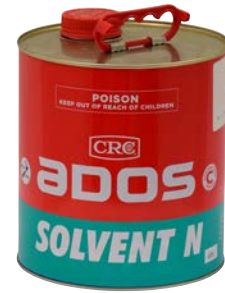

- General purpose solvent, cleaner and thinner.
- Can be used as a thinner with F2, F22, F38 and F55 adhesives, as well as for pre-wiping surfaces, softening flooring adhesives, and cleaning down shower units and other surfaces like PVC pipes and fittings.
- Can also be used as a general purpose cleaner of brushes, materials and equipment contaminated by neoprene adhesives

### Products in the range

ADANL01 1 Litre

ADANL04 4 Litre

ADANL20 20 Litre Indent

## Bostik® Unigrip 999 HR

ADBUG\_ \_

- Heat activated, high strength PVC adhesive. Suitable for use on PVC inflatable boats, truck sidings and tarpaulins, and general PVC use.
- Easily brushable, Unigrip 999 has low odour (keytone solvents used) and is specially stabilized against excessive and early yellowing and staining due to sunlight.

### Products in the range

ADBUG01 1 Litre

ADBUG04 4 Litre

## Bostik® Solvent No.4

ADBSN4\_ \_

- Strong, thinning solvent. Used to thin or reactivate urethane- or nitrile-based adhesives. Also used to remove dried adhesives from a variety of surfaces and to clean PVC prior to cementing with adhesives.

### Products in the range

ADB SN401 1 Litre

ADB SN404 4 Litre

ADB SN420 20 Litre

## Bradmill Water Based Bradproof™

WSBCPWP\_ \_

- Waterproofing product for reproofing of Polycotton canvas products.
- Water-based treatment that will restore a water repellent finish and inhibit mildew growth on used canvas goods. Do not apply to new canvas - it is unnecessary and may lead to impairment of appearance.

### Products in the range

WSBCPWP02 2 Litre

WSBCPWP05 5 Litre

WSBCPWP20L 20 Litre

## Bradmill Brellaguard®

WSBBG\_ \_

- Water-based waterproofing treatment that repels dirt, grease, water and oil on most textile products including acrylic canvas.
- When applied to fabric surfaces the active ingredients in Brellaguard® function at a 'nano' level by reshaping and crystallising with dendrimers (star shaped polymers) to form an impenetrable shield.

### Products in the range

WSBBG750 750ml spray bottle

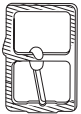

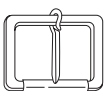

WSBBG05 5 Litre

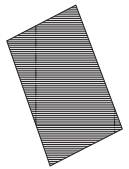

Please note that our consumables charts are available as A3 Wall Posters please give us a call if you would like one.
